COMMENT

Meeting Attended:
Blanca Scoping Meeting

Important Issues:
Land Use (Agriculture, Residential, Recreation), Water Resources (Floodplains, River Crossings),
Historic and Cultural Sites, Radio or Television Interference, Noise, Health and Safety, Project
Purpose and Need, Biological Resources, Visual / Aesthetic Resources

Property Uses:
Residential

Comment:
Our family owns a house in the proposed high-voltage transmission line corridor very close to one of the proposed lines. Although we have owned this house for about twenty years it wasn't even indicated as a structure on the map presented at the scoping meeting. Many of the structures were not indicated on that map. Property owners in our area were not advised of the project or the meetings. Tri-State was unable to provide any specific details about the proposed towers because they said that the details had not been finalized. I have some serious concerns about right-of-way issues. Due to the pristine nature of the property in our area, wildlife habitat and migratory patterns will be threatened by the proposed high-voltage transmission line corridor. I also understand that the Ft. Garland museum and its archeological projects have not been taken into account in the planning of this corridor. I have numerous other concerns, but it seems as if there has been no opportunity or venue to voice those concerns. It is obvious that a full environmental impact statement is necessary so that all of our concerns, historical, social, cultural and environmental, can be fairly heard and addressed.

I-246-001: Correction to Data (In Review)

Your email/letter/comment form has been received and your comment noted. The information you provided will be verified and project materials will be updated accordingly. The Environmental Impact Statement is anticipated to be completed in late 2010 and will be available at <http://www.usda.gov/rus/water/ees/ea.htm>.

I-246-002: Public Involvement Process (In Review)

Your email/letter/comment form has been received and your comment noted. The project is in the planning and environmental review stages. Current project information will be available on the RUS project website, <http://www.usda.gov/rus/water/ees/ea.htm> and the Utilities' project website, <http://www.socotransmission.com/>. The Environmental Impact Statement is anticipated to be completed in late 2010 and will be available at <http://www.usda.gov/rus/water/ees/ea.htm>.

I-246-003: Wildlife (In Review)

Your email/letter/comment form has been received and your comment noted. Potential impacts to wildlife from the proposed project and mitigation measures will be addressed in the Environmental Impact Statement. The Environmental Impact Statement is anticipated to be completed in late 2010 and will be available at <http://www.usda.gov/rus/water/ees/ea.htm>.

I-246-004: Cultural, Historic, and Arch (In Review)

Your email/letter/comment form has been received and your comment noted. Potential impacts to and mitigation measures regarding cultural, historic, and archaeological resources from the proposed project will be addressed in the Environmental Impact Statement.

The Environmental Impact Statement is anticipated to be completed in late 2010 and will be available at <http://www.usda.gov/rus/water/ees/ea.htm>.

I-246-005: Public Involvement Process (In Review)

Your email/letter/comment form has been received and your comment noted. The project is in the planning and environmental review stages. Current project information will be available on the RUS project website, <http://www.usda.gov/rus/water/ees/ea.htm> and the Utilities' project website, <http://www.socotransmission.com/>.

The Environmental Impact Statement is anticipated to be completed in late 2010 and will be available at <http://www.usda.gov/rus/water/ees/ea.htm>.

I-246-006: NEPA Process (In Review)

Your email/letter/comment form has been received and your comment noted. Tri-State Generation and Transmission Association, Inc. has requested financial assistance from the USDA Rural Utilities Service (RUS), for their anticipated ownership interest in the proposed San Luis Valley – Calumet - Comanche Transmission Project. RUS has determined that funding Tri-State's ownership interest is a federal action requiring analysis under the National Environmental Policy Act (NEPA). RUS is the lead federal agency for NEPA, and will consult with other federal, state, and local agencies, and affiliated tribes as well as adhere to applicable regulations.

Additional information regarding the NEPA process can be found on the RUS project website at <http://www.usda.gov/rus/water/ees/enviro.htm>. The Environmental Impact Statement is anticipated to be completed in late 2010 and will be available at <http://www.usda.gov/rus/water/ees/ea.htm>.
